- 11/05/05 **48 HOURS MYSTERY: "Jeffrey McDonald: Time For Truth"**- a report on the 1970 murders of U.S. Army Doctor Jeffrey MacDonald's pregnant wife and two young daughters at their Fort Bragg home in Fayetteville, N.C. Having served 25 years in prison for the murders, MacDonald, now 61, still proclaims his innocence and expresses hope that he will eventually be legally vindicated. From the day following the murders 35 years ago, MacDonald has maintained that a group of crazed, drug-fueled hippies broke into his apartment and murdered his wife Collette and daughters -- five-year-old Kimberly and two-year-old Kristen. It took the U.S. Government nine years to make its case against him, but in 1979, a jury convicted MacDonald of three counts of first-degree murder -- a conviction based entirely on circumstantial evidence. Since then, MacDonald and his lawyers have exhausted every avenue of appeal. Married behind bars over two years ago, MacDonald's request for parole was denied. He is hoping that DNA testing being done on hair and blood evidence from the crime scene will confirm that he did not kill his family. - 11/12/05 **48 HOURS MYSTERY: "Sex, Lies And The Doctor's Wife"** - Karen Tipton, a mother of two and the wife of prominent psychiatrist Dr. David Tipton, was found stabbed to death in her Decatur, Alabama home in March 1999. Police quickly ruled out her husband as a suspect, and a month later arrested 24-year-old Daniel Wade Moore, who worked for the alarm company that had installed a security system in the Tipton home. Moore, a drug user, had initially confessed to his uncle to being present at the scene of the murder, but later retracted his statement. Despite the lack of physical evidence, Moore was tried, convicted and sentenced to death row. Eight months following the conviction, Moore's defense attorneys discovered that prosecutors had withheld potentially conclusive information in the case including an FBI report suggesting that Karen was having multiple affairs, and may have known her killer. In a stunning reversal in February 2005, the same judge who sentenced Moore to death released him from prison. The state appealed the decision and Daniel Moore is now awaiting a new trial that could set him free. (C: Erin Moriarty - Sr. P: Peter Schweitzer - P: Katherine Davis, Marc B. Goldbaum, Susan Mallie)
- 11/19/05 **48 HOURS MYSTERY: "Nightmare In Napa"** - on October 31, 2004 former beauty queen Leslie Mazzara and her roommate, Adriana Insogna, were found stabbed to death in the upstairs bedrooms of their Napa, California home. A third roommate, Lauren Mianza, sleeping downstairs, was not harmed and was the only witness. After almost a year of intensive investigation, one clue -- the discarded butts of Camel Turkish Gold cigarettes found at the murder scene - - led to Eric Copple, the husband of Insogna's best friend, Lily Prudhomme. Copple, his wife Lily and other family members came to the police station where he was interviewed and made admissions that linked him to the crime. One year later, police can claim that the crime has been solved but the motivation behind the attacks is not yet known. Eric Copple is expected to stand trial next year and could face the death penalty. His wife Lily visits him in prison as he waits trial. 48 HOURS (continued)

11/26/05 **48 HOURS MYSTERY: "Deadly Ride"** - Janet Mixer, one of a handful of female students at the University of Michigan Law School in March of 1969, had just agreed to get married and had arranged a ride home to tell her parents. Her body was found in a small, rural cemetery just miles from her dorm. She had been shot twice in the head and strangled. Jane Mixer was the third of seven young women to be found dead in the area within two years. Shortly after finding the seventh victim, police arrested John Collins, an Eastern Michigan University student who was subsequently convicted of only one of the murders. Maggie Nelson, the daughter of Janet's sister Barbara, determined to write a book about her aunt and to unravel the mystery of her murder. Some detectives also believed the case merited another look. DNA tests of blood stains found at the scene of the crime led police to Gary Leiterman, a 62-year-old retired nurse, and to John Ruelas, who was four-years-old at the time of the crime. Despite concerns over the possible contamination of DNA evidence and the absence of fingerprints, Gary Leiterman, was tried, convicted of first degree murder and sentenced to life in prison. Leiterman, who maintains that he is innocent, plans to seek a new trial, challenging the DNA evidence. (C: Maureen Maher - Sr. P: Judy Tygard - P: Gail Abbott Zimmerman, Chris Young)
